

InterCommunity Health Network Coordinated Care Organization (IHN-CCO)

Delivery System Transformation (DST) Meeting: November 18, 2021

Transformation Updates

- DST Meeting Coordination
- 2022 contract awarded
- Waiver Concept Papers released ([final waiver concept papers](#))
- Traditional Health Worker (THW) workforce integration
- Sustainability Workgroup starting in January
- Community Training Collaborative
- Connect Oregon Workgroup

Sustainability Workgroup

Workgroup Goal:

To discuss and address barriers and share best practices.

Workgroup Details:

- Sustainability Workgroup to kick-off in January 2022
- Monthly/Quarterly meetings – First meeting on Workgroup charter and goals
- Desired representation includes past pilot participants and current pilot participants

Please email transformation@samhealth.org to express interest.

Community Training Collaborative

Collaborative Goal:

To develop a collaborative to leverage community training opportunities for THWs and behavioral health providers.

Collaborative Details:

- Assess current training offering across IHN-CCO and its community partners.
- Identify gaps in training availability and develop a plan to build training opportunities.
- Assist trainers in applying for recognition and education credits.
- Communicate and coordinate training opportunities across the IHN-CCO service area.
- Ensure a collaborative structure led by IHN-CCO through memorandums of understanding that include provisions for the delivery of training, including funding, curriculum development, resource allocation, and trainings offered at a discount for Community Training Collaborative partners.
- Support a shared understanding of culturally and linguistically appropriate standards that should be included in each training.

Community Training Collaborative

Discussion Points:

- Community interest in the Community Training Collaborative
- Thoughts on the structure including memorandums of understanding
- Committing to discounted training for collaborative participants/community partners
- Thoughts on training capacity concerns given increased training requests
- DST involvement in the Community Training collaborative
- Concerns with support on training opportunities (structure, staffing, funding)

IHN CCO will be distributing a survey in early December regarding trainings available and interest in joining the collaborative.
