**Transformation Update**

- Reminder for those with pilot updates in October to please get materials to Transformation for inclusion in the packet.
- All DST approved pilots were approved at the Regional Planning Council (RPC) on October 5<sup>th</sup>. We are waiting on final leadership approval for the additional \$67,000 needed to cover the total cost of the 11 pilots. Formal announcements will be sent out as soon as we hear back.

**Closeout Presentation: Healthy Homes Together**

- Q: Can you tell us anything more about bedbugs?
  - A: We held bedbug classes/workshops, where the treatment provider provided education and assistance, we made bedbug traps, etc. We learned that it requires no judgement! Bedbugs are tough.
- Q: The goal is to improve things long-term, not just short-term outcomes, correct?
  - A: Our hope is that people get oriented towards making things better. You want that ongoing success. For example, we had one family come back and ask for more support – that shows that longer-term success. Life never goes in a straight line. Unfortunately, we had one person die during this time, but the family was able to continue on with the supports. We saw that there was a level of need asking for help with, and then there were a few people that had really high needs that needed more intensive support. Sustainability is also an issue. When the funding ran out, we are still grappling with how to keep a CHW on site. That funding sustainability isn't solved yet.

**Training: Data Justice with the Indigenous Health Equity Institute Session 1**
