Request for Proposal (RFP) Process & Priority Discussion

- Key discussion themes pulled from 2022 DST minutes.
- Transformation priority area recommendation to focus on Social Determinants of Health and Equity for the 2023 RFP.
 - These focus areas feel like they are in line with our goals of transformation and innovation.
 - Important focus areas, such as behavioral health, can still be addressed in pilot proposals, but must be grounded in equity or be innovative in an approach that incorporates Social Determinants of Health.
 - With the focus areas of our workgroups, these two priority areas feel in alignment.
- Consensus: Move forward with Social Determinants of Health & Equity as the priority area.

DST Priority Area & Request for Proposal Recommendations

1. **Language and Accessibility:** continually working to approve with the DST & Health Equity Workgroup
2. **Inclusion:** have had discussions, continually working to approve with the DST & Health Equity Workgroup
3. **Environmental Scan:** what organizations in or out of the area are already doing this? What works best? Can we partner with them?
4. **Scorecard Adjustments:** on agenda for future discussion
5. Prioritize current pilots by working with them on **replicability and spread**
6. Should a clear **funding cap** be included? What about considerations for **partial funding**?
7. Are **scorecards** a meaningful tool for setting the foundation for discussion and decision-making?
8. What is the decision-making **timeline** for a two RFP process? What is equitable?

Priority Area Recommendation: Social Determinants of Health & Equity based off the Community Advisory Council’s Community Health Improvement Plan (CHIP).

Social determinants of health are the conditions in which we born, grow, live, work, play, worship, and age.

Reasons:

- Priority area must be aligned with the CHIP
- The DST has aligned itself even more with SDoH & E through this strategic planning process
- Allows a focus on inclusion and bringing communities of color to the table
- DST members have continually commented that the spectrum of pilot projects are often too broad, requesting a more focused RFP
- Behavioral health is nearly always a focus, but funding streams coming from the federal and state governments are driving a lot of the work in this region

Social Determinants of Health and Equity

Recommendations/Options for RFP Process

Mix and Match!

Add an even smaller RFP with a simplified process to support first-time applicants and small, grassroots organizations. Possibilities:	Small RFP (historically \$50k and less)	Large RFP (historically over \$50k)
<\$20,000	Funding cap per proposal: \$50k, \$25k	Funding cap per proposal: \$150k, \$300k
Simplified application (2-3 pages), no application	Prioritize Small RFP (first to make decisions on)	Partially fund proposals
Memorandum of Understanding versus Contract	Cap Small RFP: \$200- \$300k	Prioritize Large RFP (first to make decisions on)
Minimal reporting requirements, technical assistance encouraged, but not required	Provide an option for past pilots to apply for sustainability or spreading promising practices	Provide an option for past pilots to apply for sustainability or spreading promising practices
Prioritize this RFP (first to make decisions on)	Make decisions at the same time	Make decisions at the same time
